**Outdoor Meal Kit** ([Light My Fire](#)) Next time your father or grandfather is off on a hike, or golfing they can take their lunch to go in this nicely designed, ingeniously portable, multi-functional spill-proof mess kit. It contains everything Dad will need to prepare and eat a meal anytime. It has two plates, a spill-free cup with lid, a combined colander and cutting board, a "Spork" (combined spoon, fork and knife) and a small waterproof box for all those things that just have to stay dry. It's perfect for the camper, or day hiker. Dishwasher and microwave safe - and for those paddlers out there -- it floats! \$24.00
